General Policy:

While tax increment financing (TIF) is an important and useful tool in attracting and retaining businesses, it is essential that it is used appropriately to accomplish the City's economic development goals and objectives. The fundamental principle that makes TIF viable is that it is designed to encourage development which would not otherwise occur. The City is responsible to assure that the project would not occur "but for" the assistance provided through TIF. It is the policy of the City to consider the judicious use of TIF for those projects which demonstrate a substantial and significant public benefit by constructing public improvements in support of developments that will create new jobs, retain existing jobs, eliminate blight, strengthen the economic base of the City, increase property values and tax revenues, create economic stability, and stabilize and upgrade existing neighborhoods and areas. Priority will be given to projects that meet these goals.

Policy Guidelines:

The following criteria are to be used by the City to evaluate TIF applications:

1. Each TIF applicant must demonstrate that without the use of TIF, the project is not feasible and would not otherwise be completed.
2. Each TIF applicant must possess the financial and technical ability to complete and operate the project as proposed.
3. Projects involving retail development that is targeted to encourage an inflow of customers from outside the City or that will provide services that are currently unavailable or in short supply in the City will be viewed more favorably.
4. Allowable uses of TIF assistance funds include: Land acquisition, Planning, legal, engineering or architectural services, Demolition of buildings and clearing of property, Construction costs of infrastructure improvements, Rehabilitation of existing structures and financing costs.

The City enters into "redevelopment agreements" with businesses that either locate or make substantial improvements within the TIF district. Through this agreement, the business agrees to complete the project and make certain improvements. A business cannot assume the City will financially participate in the project. Decisions are made on a project-by-project basis and must receive City Board approval before the staff can process any assistance.

Consideration for project assistance is to be reviewed for compliance with the following requirements:

- The business must be a "for profit" business in good financial standing
- The business must be located within the established TIF district
- The business must show the financial capability to complete the proposed project

Tax Increment Financing Assistance Application

Applicant Information

Project Name _____

Company Name _____

Business Form: ___ Corporation ___ Partnership _____ Sole Proprietorship

Contact Person/Title _____

Address _____

City _____ State _____ Zip Code _____
